**Save Water - Save Money. Be protected against Leaks.**

**Waterdetect**

**Waterdetect**  
**Single Audible**  
**Alarms to**  
**alert of leaks**

Do YOU know.....  
Even one small undetected leak can lose up to 200 litres per hour!  
Imagine what that would do to your premises!!  
If you are ready (or likely will be) paying for water—how much will that cost you over a year?  
Don't let your premises and possessions be destroyed by a leak that could have been prevented.

**Osmo-Guard**

**hydrā-Pipe**  
water detecting system

**Hydra-Pipe**  
**Intelligent Leak**  
**Sensing System**  
**with Automatic Shut**  
**Off Of Water Supply**

The system comes with electric supply and has integrated long lasting rechargeable batteries as back-up, will run self-tests, and features a special 'Holiday' function for long periods of absence. Whenever there is a leak, it will shut the main water supply, making it your best whole house water protection solution, equipped with the latest technologies.
